ANDREA WICHMAN

CYBER SECURITY · GOVERNANCE, RISK, AND COMPLIANCE

PROFILE

From a humanities background and twelve years managing organic farm operations, where regulatory compliance, risk assessment, and business continuity were core responsibilities. Pursuing an MSc in Information and Cyber Security at Royal Holloway.

EDUCATION

Royal Holloway, University of London 2026–2028
MSc Information and Cyber Security

Columbia College Chicago 2013
Bachelor of Arts in Cultural Studies

EXPERIENCE

Farm Operations Manager 2013–2025
Organic Farm · Central Illinois, USA · Hybrid

- Managed administrative operations for a 600-acre corn and soybean farm through its transition from conventional to USDA-certified organic production
- Maintained compliance with USDA organic certification standards and state/federal agricultural regulations through every annual certification cycle
- Oversaw financial planning, asset tracking, contract negotiations, and multi-year operational strategy
- Assessed and mitigated operational risks including environmental factors, supply chain disruptions, and regulatory changes

Assistant Manager 2020–2021
Queen · Los Angeles, California, USA

- Wrote and delivered the pitch for a COVID-era "Clean Air Initiative" and secured several restaurant and retail accounts
- Owned wholesale botanical supplier relationships and weekly purchasing across a client portfolio recognized in American Express's national "Shop Small" campaign
- Negotiated and managed B2B service contracts with accounts including the Peninsula Beverly Hills Hotel and Ron Herman
- Led large-scale installations across hotel, restaurant, and retail sites, keeping clients compliant with Los Angeles County's COVID physical distancing orders while remaining operational

Lead Cultivator 2020
Buddha Company · Los Angeles, California, USA

- Led cross-functional team in setup and operational launch of four industrial cultivation facilities
- Developed standard operating procedures within state regulations covering production, environmental controls, and quality assurance
- Maintained application records, scheduling logs, and plant and input inventories across cultivation operations

CERTIFICATIONS

CompTIA Security+ 2026

CompTIA A+ 2026

CELTA International House Roma · 2016

PROJECTS

Fenn

Fictional agritech company · Policy suite · UK GDPR · Access control · Risk register · Incident response · ISO 27001 · Vendor & subprocessor management

The Burrow

Blog with sources in an interactive 2000s desktop · Surveillance law · Cybercrime · Governance failures · Data protection · Civil liberties

CASE STUDIES

Salesloft Drift Supply Chain 2025

NCSC principles · Third-party risk · Token compromise

AGCO Ransomware 2022

NIST CSF · Supply chain risk · Incident response

NHS WannaCry 2017

ISO 27001 · Gap analysis · Remediation roadmap

TECHNICAL SKILLS

Governance, Risk, and Compliance

USDA FSA program compliance and enrollment documentation · Risk assessment · Gap analysis · Regulatory research · Framework analysis (ISO 27001, UK GDPR, NIST CSF, NCSC)

Systems and Infrastructure

Home lab (Active Directory, Windows Server 2022, VirtualBox) · System hardening · Linux and Windows administration · Command line · Git version control

Network and Security

DNS, TCP/IP, and custom domain management · Email authentication (SPF, DKIM, DMARC) · VPN and encrypted transit

Security Tools and Practices

Encrypted storage and communications (VeraCrypt, Proton) · Hardware 2FA (Nitrokey) · Password management (Bitwarden) · Identity compartmentalization (SimpleLogin)
